## Report of the Board of Directors

### 1. MANAGER'S REPORT

#### 1.1 Retrospective on financial markets

Inflation: the surprise guest

In 2021, the world economy grew by almost 6%, but quarter-on-quarter progress was far from smooth and there were major variations between regions and sectors. Output remained highly dependent on pandemic-related developments, but overall, the recovery was stronger and faster than expected, particularly as a result of monetary support and fiscal stimulus. The combination of very firm demand and limited supply, caused by supply-chain problems, had a big impact on inflation. This forced central banks to adjust their communication and strategies, which ended the year in a very different place to where they started it.

In the US, progress with vaccination and large-scale fiscal support, including direct payments to households, meant that the economy expanded rapidly in the first quarter and saw growth of 5.5% in the year as a whole. In January, the new Biden administration won a small majority in the Senate, allowing it to present ambitious spending plans regarding infrastructure, investments in new technologies and support for households, along with tax rises for businesses and the highest earners. Growth slowed considerably in the third quarter, particularly due to labour shortages and supply-chain problems affecting certain components. Rising prices, along with a resurgence in Covid-19 cases at the end of the year, also dragged down consumer confidence. As regards public spending, the infrastructure bill was finally passed in November, but a huge programme of social and environmental reforms was blocked in the Senate because of opposition from Democrat Joe Manchin.

In Europe, the economy was held back throughout the first half of the year by high levels of Covid infections and slow vaccine rollouts. The UK saw growth of almost 7% in 2021 and was the first European country to reopen its economy gradually from spring onwards. This led to a sharp upturn in consumer spending in the second quarter. The eurozone economy followed a few weeks behind and grew by around 5% in 2021. It saw a surge in consumer spending, driven by accumulated savings and public support for jobs. The situation took a turn for the worse at the end of the year due to a sharp increase in infections and the appearance of the Omicron variant, which forced some European countries to introduce new restrictions as well as damaging confidence among consumers and in the service sector.

In China, growth was strong at the end of the year, but the government's zero-Covid strategy led to repeated local lockdowns. This resulted in a sharp slowdown in consumer spending, but also helped ramp up pressure on the supply chain as a whole and on shipments of goods to the rest of the world. China's recovery was held back further by a surge in commodity prices and the crisis in the property sector, exemplified by problems at property developer Evergrande. Observers were also concerned about tougher regulations in certain sectors, including internet platforms and education. Nevertheless, Chinese GDP still grew by 8% in 2021 thanks to a strong start to the year.

One of the year's big stories was inflation, which rose very sharply and more than expected. Inflation beat expectations in all regions and rose every quarter due to rising energy prices, very strong demand as economies reopened and supply-chain difficulties, but also surging housing prices, particularly in the US. It reached levels not seen for decades: almost 7% in the US and around 5% in the eurozone and UK. In China, inflation rose less, but there was severe upward pressure on producer prices.

As in 2020, monetary policies remained heavily in favour of supporting growth in the first half of 2021, but central-bank rhetoric changed significantly as the year wore on and ended the year on a more hawkish note, in favour of tightening in 2022. The world's main central banks had to admit that inflation would remain high for longer than expected, and were forced to raise their inflation forecasts several times. On both sides of the Atlantic, unemployment rates fell very sharply to the extent that finding enough staff was one of the main problems facing US businesses, and this led to sharp wage increases in certain sectors.

## Report of the Board of Directors (continued)

In December, the Fed announced that it would bring forward the end of its asset purchase programme and that it was prepared to raise its key rates several times in 2022, whereas at the start of the year Fed officials were not forecasting any rate hikes before 2024. The Bank of England carried out a surprise rate hike – raising its base rate from 0.1% to 0.25% in December – becoming the first G7 central bank to do so. This was prompted by high inflation and an extremely stretched labour market. In December, the European Central Bank announced that its Pandemic Emergency Purchase Programme (PEPP) would end in the first quarter of 2022, but stated, like the Bank of Japan, that it did not intend to raise official interest rates rapidly. China stood out from other countries by adopting a tighter monetary policy in order to dampen growth in borrowing. It was not until the very end of 2021 that China's central bank decided to loosen monetary policy slightly in response to a slowing economy, by cutting the reserve requirement ratio applicable to banks and, more marginally, its loan prime rate for the first time since April 2020. Rate hikes were gradually announced in many emerging-market countries in response to higher inflation.

In the political arena, 2021 saw the arrival of a new coalition government in Germany, made up of the SPD, the Greens and the FDP, with policies to boost public-sector investment and certain types of social spending, including an increase in the minimum wage. A new prime minister also took up office in Japan, with a programme focusing on infrastructure and new reforms. Finally, even with the new US administration, relations between the US and China remained tense on both the economic and diplomatic fronts.

### Negative returns from sovereign bonds

Long bond yields saw high volatility in 2021, driven by increasing concern about inflation, uncertainty regarding new Covid variants and the increasingly hawkish tone of central banks. Yields rose sharply at the start of the year in anticipation of a rapid, vaccine-driven economic upturn and the prospect of huge stimulus plans, and then levelled off in the second quarter. The rise in infections caused by the Delta variant in early summer caused yields to fall rapidly, before they rebounded substantially in early autumn due to rising inflation. They then fell again in November because of Omicron. The fourth quarter also brought a sharp increase in short-term yields, particularly in the US and UK, and with it significantly flatter yield curves. Over the year as a whole, 10-year yields rose 60 basis points (bp) in the US (to 1.51%), almost 80bp in the UK (to 0.97%), and 40bp in both Germany (to -0.18%) and Switzerland (to -0.14%). This meant that holders of sovereign debt lost money for the first time since 2013 in dollars (-2.4%) and sterling (-5.3%), and for the first time since 2006 for the eurozone as a whole (-3.4%). Swiss bonds delivered a 4.1% negative return, much greater than the 0.4% loss seen in 2017.

The bright economic outlook caused yield spreads on corporate bonds to narrow significantly in the first half of 2021, particularly for lower-quality paper. Spreads then stabilised until mid-autumn, before widening substantially in November. Overall, high-yield bonds delivered significantly positive returns, with gains of 5.4% in dollars and 3.3% in euros. Credit spreads on the safest bonds were almost unchanged, which explains the 1% loss produced by investment-grade credit in both of these currencies. The risk premium on emerging-market countries' external debt rose in 2021, which led to a 1.8% negative return, although the loss was modest compared with local emerging-market debt converted into dollars (-8.0%).

### Significant rallies for the dollar and almost all commodities

The year's biggest surprise in the forex market was the dollar's 6.4% gain against a basket of major currencies in 2021, making up for its 6.7% decline in 2020. The dollar benefited from an attractive interest-rate differential and the Fed's more hawkish tone in the second half of the year, and gained ground against all G10 currencies except the Canadian dollar, which rose 0.8%. Of the G10 currencies, the yen saw the biggest decline (-10.2%). The euro ended the year at \$1.14, representing a fall of almost 7%. The single currency also lost ground against sterling (-6.2%) and the Swiss franc (-4.2%), two currencies which were strongly in demand in 2021. The Chinese renminbi was one of the few emerging currencies to rise against the dollar (+2.7%), while others saw sharp declines, first and foremost the Turkish lira (-44.1%) and the Argentine peso (-18.1%).

## Report of the Board of Directors (continued)

Commodities were greatly buoyed by the prospect of a rapid rebound in global growth. Oil was also supported by supply-side constraints, and the Brent crude price rose 50% over the year. Surging gas prices in Europe were repeatedly front-page news and revived inflation fears. Base metals prices also jumped, particularly copper (+27%) and aluminium (+42%). Prices of many agricultural commodities rose more than 20% as well. However, precious metals had a difficult year. Having been one of 2020's big winners, gold fell 3.6% in 2021, but there were bigger declines for platinum (-9.6%), silver (-11.7%) and palladium (-22.2%).

### Equity markets highly resilient

Although 2021 was an action-packed year in which investors had to interpret Covid infection data, assess medium-term inflation risks, form an opinion on long-term developments in China and estimate the reaction functions of central banks, any declines in the global equity market were very modest (with a maximum of about 6% in September). Overall, markets posted their third straight year of impressive gains, with the MSCI AC World index rising 20.9% in local-currency terms (net dividends reinvested). The continuation of this very clear uptrend was driven by central-bank and government support for economies, but probably even more importantly by corporate earnings figures that were well ahead of expectations. As a result, the S&P 500 has more than doubled since its March 2020 low, posting a gain of 28.2% in 2021. However, 2021 was not always easy for asset managers, because many were not prepared for the rapid rotation into value stocks that happened in the first quarter. Subsequently, to be successful, they needed to have high exposure to US tech mega-caps and, at the end of the year, to avoid some of 2020's best performers such as high-growth but unprofitable companies.

Most developed markets (+24.2% on average) delivered solid returns although some, like Spain (+9.1%), Germany (+13.3%) and Japan (+13.4%) lagged behind a little. The Swiss market (+23.0%) performed in line with the average. The picture is very different for emerging markets, which ended the year down 2.5% overall in dollar terms (-0.2% in local currencies). There were wide variations. For example, the Indian and Taiwanese markets posted 26% gains in dollar terms and Russia rallied 19%, whereas there were declines of 17% in Brazil and, even more strikingly, 22% in China as measured by the MSCI index. The Chinese market fell almost continuously from February onwards against a background of slowing growth, monetary tightening, new regulations in certain sectors and the risk of a property crisis.

At the worldwide level, all sectors ended the year with gains of more than 10%. As in 2019 and 2020, technology was one of the big winners (+28.9%), but was outshone by 2020's big loser, the energy sector (+38.4%). Third place went to the other sector that posted losses for 2020, i.e. financials (+26.9%), which was naturally supported by higher bond yields.

## REPORT OF THE *REVISEUR D'ENTREPRISES AGREE*

### Opinion

We have audited the financial statements of UBAM (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at 31<sup>st</sup> December 2021 and the statement of operations and other changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31<sup>st</sup> December 2021, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of 23<sup>rd</sup> July 2016 on the audit profession (Law of 23<sup>rd</sup> July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" (CSSF). Our responsibilities under the Law of 23<sup>rd</sup> July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "*Responsibilities of the "réviseur d'entreprises agréé"* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "*réviseur d'entreprises agréé*" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## **Responsibilities of the Board of Directors of the Fund for the Financial Statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

## **Responsibilities of the “réviseur d'entreprises agréé” for the Audit of the Financial Statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated 23<sup>rd</sup> July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated 23<sup>rd</sup> July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "*réviseur d'entreprises agréé*" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "*réviseur d'entreprises agréé*". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The sale of protection through Credit Default Swaps allows the SICAV to receive a premium as the SICAV is exposed to the risk of default by an issuer. A payment default by the issuer may be offset by settlement either in cash or in kind. In the case of settlement in cash, the buyer of a Credit Default Swap for hedging purposes receives from the seller a sum equivalent to the difference between the face value and the redemption amount which is still recoverable. In the case of settlement in kind, the buyer of a Credit Default Swap for hedging purposes receives from the seller the entire face value, in exchange for which he hands over the defaulted security to the seller; alternatively the buyer and seller exchange securities selected from a basket whose composition is decided in detail when the Credit Default Swap contract is signed. Events of default are set out in the Credit Default Swap contract, as are the arrangements for the delivery of bonds and debt securities. The SICAV may, if necessary, re-sell the Credit Default Swap acquired for hedging purposes, or reproduce the credit risk by buying call options.

## Other Notes to the financial statements as at 31st December 2021

### Note 1 - General Information

UBAM (hereinafter the "SICAV") is a variable capital investment company incorporated in Luxembourg on 6th December 1990 in accordance with the legislation of the Grand Duchy of Luxembourg, subject to Part I of the law of 17th December 2010 relating to undertakings for collective investment (the "2010 Law"), as amended.

The objective of the SICAV is to offer its shareholders the possibility to invest in an investment vehicle oriented towards the growth of capital invested in various transferable securities.

The SICAV offers investors a choice between various sub-funds, each having different investment objectives. Each sub-fund constitutes a distinct set of assets, represented by different classes of shares. The SICAV thus constitutes a company with multiple sub-funds.

The Board of Directors may at any time and in conformity with the articles of incorporation, issue classes of shares falling within other sub-funds, whose investment aims differ from those of already existing sub-funds.

At closing date, the following sub-funds are active:

### Types of shares

Within each sub-fund, shareholders may be offered various Types of shares:

- **Type A shares**; standard share class;
- **Type I shares**, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors.
- **Type I+ shares**, reserved exclusively for institutional investors who may subscribe on their own behalf or on behalf of third parties, who must also be institutional investors.

For this Type I+, the minimum initial subscription amount is:

- For UBAM - 30 GLOBAL LEADERS EQUITY: USD 30 million or equivalent,
- For UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME: EUR 10 million
- For UBAM - EUROPEAN CONVERTIBLE BOND (formerly UBAM - EUROPE 10-40 CONVERTIBLE BOND) <sup>(1)</sup>, UBAM - GLOBAL SUSTAINABLE CONVERTIBLE BOND <sup>(1)</sup> and UBAM - GLOBAL CONVERTIBLE BOND: USD 50 million or equivalent,
- For UBAM - DYNAMIC US DOLLAR BOND: USD 100 million or equivalent,
- For UBAM - DYNAMIC EURO BOND: EUR 10 million or equivalent,
- For UBAM - EURO HIGH YIELD SOLUTION: EUR 150 million or equivalent,
- For UBAM - EMERGING MARKET CORPORATE BOND SHORT DURATION : USD 25 million or equivalent
- For UBAM - US HIGH YIELD SOLUTION: USD 150 million or equivalent,
- For UBAM - GLOBAL HIGH YIELD SOLUTION and UBAM - GLOBAL HIGH YIELD SOLUTION EXTENDED DURATION <sup>(1)</sup> : USD 300 million or equivalent.

The minimum amount can be divided among several classes of each sub-fund.

- **Type U shares** are only available for:
    - investors who need to be pre-approved by the SICAV's Board of Directors and who purchase the Shares indirectly through a financial intermediary (such as a fund platform or wealth management firm) which provides either:
      - (i) portfolio management services; or
      - (ii) independent investment advisory services; or
      - (iii) similar services based on agreements specifically providing for investment in retrocession-free share or unit classes;
    - investors in the United Kingdom, the Netherlands and such other countries as may be decided by the SICAV's Board of Directors from time to time who purchase the Shares directly;
    - other investors having received a specific approval given by the SICAV's Board of Directors;
- These Shares do not entitle to any retrocessions. The Class U Shares are retail distribution review (RDR) compliant.

## Other Notes to the financial statements as at 31st December 2021 (continued)

- **Type R shares**; standard share class;
- **Type F shares**, only available for UBAM - POSITIVE IMPACT EMERGING EQUITY and UBAM - POSITIVE IMPACT EQUITY, which are reserved for selected charitable organisations who have received specific approval given by the SICAV's Board of Directors;
- **Type K shares**, which are reserved for investors in the United Kingdom, the Netherlands and such other countries as may be decided by the SICAV's Board of Directors and who have received specific approval given by the SICAV's Board of Directors. K shares do not entitle to any retrocessions;
- **Type M shares**, only available for some sub-funds, which are reserved for UBP clients who have signed a Discretionary Portfolio Management with Union Bancaire Privée, UBP SA or with any other member of the UBP Group;
- **Type S shares** are only available for:
  - investors who purchase the Shares through a Spanish distributor which need to be pre-approved by the SICAV's Board of Directors and have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or any other member of the UBP Group, which provide either:
    - (i) portfolio management services; or
    - (ii) independent investment advisory services; or
    - (iii) similar services based on agreements specifically providing for investment in retrocession-free share or unit classes;
 These Shares do not entitle to any retrocessions.
- **Type V shares**, only available for:
  - external (non UBP) banking groups or asset managers which entered into specific corporate restructuring transactions (mergers, acquisitions or joint ventures) with Union Bancaire Privée, UBP SA or any of its subsidiaries / branches who invest on behalf of clients on the basis of discretionary mandates and have received a specific approval given by the SICAV's Board of Directors;
- **Type X shares**, which are reserved for distributors who have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group who invest on behalf of their clients;
- **Type Y shares**, which are reserved for institutional investors who have signed a specific cooperation agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group;
- **Type Z shares**, which are reserved for institutional investors who have signed a specific remuneration agreement with Union Bancaire Privée, UBP SA or with any other member of the UBP Group. No performance fee or management fee is charged for Type Z shares.

For the sub-fund UBAM - BIODIVERSITY RESTORATION <sup>(4)</sup>, sub-type of A and I share classes are available. These share classes bear a higher management and/or performance fee than the standard A and I classes and part of this management fee and/or performance fee is donated to non-governmental organization chosen by the Fund's Board of Directors.

For some sub-funds, certain Types of shares with reduced fees may be offered to early investors. These Types of shares will then include the letter "E" in their denomination. Their availability will be at the discretion of the SICAV's Board of Directors and will not entitle to any retrocessions, unless otherwise exceptionally authorized by the SICAV's Board of Directors. However, and in any event, Type U, Type K and Type S shares will not entitle to any retrocessions.

For the sub-fund UBAM - HYBRID BOND, considering the investment of up to 100% in Contingent Convertible Bonds, the minimum initial subscription amount for all Types of shares is USD 50'000 or equivalent.

There is no minimum subscription for any other sub-fund, except for the I+ Type of shares.

### Capitalisation or Distribution shares

Within each sub-fund, each Type may be issued in distribution shares (D shares) or capitalisation shares (C shares).

Distribution shares are denominated and categorised as follows:

- D share classes with annual dividends
- Dq share classes with quaterly dividends
- Dm share classes with monthly dividends
- Dm+ share classes with monthly dividends higher than those of Dm share classes

### Shares with performance fees

The Types of shares which include the letter "P" in their name bear a performance fee.

## Other Notes to the financial statements as at 31st December 2021 (continued)

### Shares in currencies other than the sub-fund's base currency

Shares in currencies other than the base currency of each sub-fund may be offered.

Depending on the sub-fund, the currency risk for these shares, denominated in other currencies than the sub-fund's base currency may or may not be hedged. When hedged, the hedging will be as accurate as possible and will be in a range between 95% and 105%.

The shares, hedged against currency risk, are denominated with the letter "H".

Depending of the concerned sub-funds, the objective of the hedging transactions is:

- either to cover the exchange-related risks between the base currency of a sub-fund and the share's currency or;
- to cover the exchange-related risks between the currencies of a sub-fund's underlyings and the share's currency (hence, some of these sub-funds also offer hedged share classes denominated in the base currency of the sub-funds).

The table below details which hedging method is applied for concerned sub-funds:

Sub-fund	Hedging method
UBAM - 30 GLOBAL LEADERS EQUITY UBAM - BELL GLOBAL SMID CAP EQUITY <sup>(1)</sup> UBAM - GLOBAL EQUITY UBAM - GLOBAL FINTECH EQUITY UBAM - SWISS EQUITY	Hedging transactions aim to cover the exchange-related risks between the currencies of the sub-fund's underlyings and the share's currency.
UBAM - GLOBAL AGGREGATE BOND UBAM - GLOBAL BOND TOTAL RETURN	Hedging transactions aim to cover the exchange-related risks between the currencies of the related benchmark and the share's currency. 100% Bloomberg Barclays Global Aggregate Total Return Index 80% Bloomberg Barclays Global Aggregate 1-10 years Total Return Index hedged into USD + 20% ICE BofAML Global High Yield Index hedged into USD.
All other sub-funds and shares	Hedging transactions aim to cover the exchange-related risks between the base currency of a sub-fund and the share's currency.

\* Only the CHF Hedged share class

<sup>(1)</sup> Please refer to Note 18 for more details on these sub-funds.

### **Note 2 - Principal accounting methods**

#### a) Presentation of the financial statements

The financial statements of the SICAV are prepared in accordance with the Luxembourg regulations relating to undertakings for collective investment and generally accepted accounting principles.

#### b) Valuation of securities

The valuation of any security traded or listed on a stock exchange is based on the last known price unless such price is not representative.

Regarding the valuation of money market instruments and other debt securities with a residual duration of less than 12 months, the valuation will be based on the nominal value plus any capitalised interest or based on the amortisation costs. The valuation thus calculated may differ from the actual market price. In case of significant variations in market conditions, the basis for evaluating the different investments is adjusted based on the new market returns.

The valuation of any security traded on another regulated market is based on the last available price.

When securities held in the portfolio are not traded or listed on a stock exchange or another regulated market, or when the price determined in respect of securities listed or traded on a stock exchange or another regulated market is not representative of the actual value of those securities, such securities are valued based on the likely realisable value, which must be estimated with caution and in good faith by the Board of Directors.

Premiums received on the sale of options are recognised as liabilities and premiums paid on the purchase of options are carried as assets. Option contracts outstanding at the closing date are valued at the last known price on the stock exchanges or regulated markets for that purpose.

## **Other Notes to the financial statements as at 31st December 2021 (continued)**

### b) Valuation of securities (continued)

The unrealised gain or loss is disclosed in the statement of net assets. Net realised gains or losses and net variation of the unrealised gains or losses are disclosed in the statement of operations and other changes in net assets.

Shares/Units in underlying open-ended investment funds are valued based on the net asset value available on the business day preceding the valuation date, provided said net asset value is dated on prior to the valuation date, after deducting any fees applicable.

OTC options are marked to market based upon prices obtained from third party pricing agents.

### c) Net realised gains/(losses) on sales of securities of each sub-fund

The net realised gains/(losses) on sales of securities are determined on the basis of the average cost of the securities sold and are recorded in the statement of operations and other changes in net assets.

### d) Acquisition cost of securities portfolio

In each sub-fund, the cost of acquiring securities denominated in another currency than the currency of the sub-fund is converted into this currency at the exchange rate on the date of purchase.

The cost of acquiring the SICAV's securities portfolio is equal to the sum of the acquisition costs of the securities portfolio of each sub-fund, converted into EUR at the exchange rate prevailing at the closing date.

### e) Futures contracts

Futures contracts are posted off-balance sheet and valued at their last known price on the stock exchanges or regulated markets for that purpose. The unrealised gain or loss is disclosed in the statement of net assets. Realised gains or losses and changes in unrealised gains or losses are disclosed in the statement of operations and other changes in net assets.

For the details of outstanding futures contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

### f) Swap contracts

Swap contracts are posted off-balance sheet and their values are determined each day on a reliable basis and verified by a competent professional appointed by the SICAV (the calculation is done through the system Kondor, fed by the data coming from the independent provider "ICAP"), in line with market practices. The unrealised gain or loss is disclosed in the statement of net assets. Net realised gains or losses and net variation of the unrealised gains or losses are disclosed in the statement of operations and other changes in net assets.

Valuation of CDS (Credit Default Swaps) contracts is essentially depending on the issuer's credit risk, this being defined via a spread listed in basis points.

The interests to be received and to be paid on swap contracts are accrued for each net asset value calculation according to their rate, the coupon payments frequency and the maturity date of the contracts.

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on notional amount that serves as a computation basis which is usually not exchanged. Interest rate swaps are marked to market at each net asset value calculation date. The unrealised gain or loss is disclosed in the statement of net assets. Net realised gains or losses and net variation of the unrealised gains or losses are disclosed in the statement of operations and other changes in net assets.

### g) Forward foreign exchange contracts

Forward foreign exchange contracts that have not matured on the valuation date are valued on the basis of the forward rates applicable on that date. Resulting unrealised gain or loss is disclosed in the statement of net assets. Realised gains or losses and net variation of the unrealised gains or losses are disclosed in the statement of operations and other changes in net assets.

For the details of outstanding forward foreign exchange contracts, please refer to section "Notes to the financial statements - Schedule of derivative instruments".

## Other Notes to the financial statements as at 31st December 2021 (continued)

### h) Conversion of foreign currencies

Bank balances, other net assets and liabilities and the valuation price of the securities portfolio expressed in currencies other than the currency of the sub-fund are converted into this currency at the exchange rate prevailing at the closing date. Income and charges expressed in currencies other than the currency of the sub-fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the statement of operations and other changes in net assets.

### i) Combined statements

The various items appearing in the combined financial statements of the SICAV are equal to the sum of the corresponding items in the financial statements of each sub-fund and are drawn up in EUR.

At closing date, the exchange rates prevailing are the following:

1	EUR	=	1.56415	AUD	Australian Dollar
			1.03615	CHF	Swiss Franc
			7.23150	CNH	Chinese Yuan
			0.83960	GBP	Pound Sterling
			8.86595	HKD	HK Dollar
			3.53940	ILS	Israeli Shekel
			130.95425	JPY	Japanese Yen
			10.29600	SEK	Sweden Krona
			1.53310	SGD	Singapore Dollar
			1.13720	USD	US Dollar

### j) Income

Dividends are accounted at the ex-date. Interests are accounted on a prorata temporis basis and include amortization on zero coupon bonds.

### k) Receivable / payable on treasury transactions

The caption "Receivable on treasury transactions" comprises time deposits matured and foreign exchange transactions not yet recorded under the caption "Cash at banks".

The caption "Payable on treasury transactions" comprises new time deposits, maturities of borrowings and foreign exchange transactions not yet recorded under the caption "Cash at banks".

For a sub-fund having "Receivable on treasury transactions" and "Payable on treasury transactions" at the closing date, only the net amount is disclosed in the statement of net assets.

### l) Formation expenses

Expenses in connection with the incorporation of the SICAV are amortised on a straight line basis over five years year.

### m) Transaction fees

The transaction fees, i.e. fees charged by the brokers for securities transactions and similar transactions, are recorded separately in the statement of operations and other changes in net assets under the caption "Transaction fees".

### n) Revaluation difference

Opening net assets are maintained at the closing exchange rate of the previous year. Exchange differences arising are included in the combined statement of operations and other changes in net assets for the year under "Revaluation difference".

### o) Interest paid

The rubric "Interest paid" include negative interest charged on positive cash balances. This is due to the current market conditions.

### **Note 4 - Performance fee**

The fee is equivalent to a percentage of the highest net return of the sub-fund and, respectively, of the class with respect to a reference index or a fixed rate of return. If this difference is negative or equal to zero, no performance fee will be paid by the sub-fund.

The performance fee is payable annually in arrears at the end of each 12-month year (financial year), and is equivalent to a percentage of the net asset value earnings, when this is greater than the reference net asset value, the minimum return-rate, or the high-water mark of the benchmark index. The performance fee is calculated on the basis of the net asset value after all charges and management fees (but not the performance fee) have been deducted, and is modified to take into account subscriptions and redemptions.

<sup>(1)</sup> Please refer to Note 18 for more details concerning this sub-fund.

**Note 5 - Subscription duty ("taxe d'abonnement")**

The SICAV is subject in Luxembourg to an annual tax of 0.05%, for Types A, U, R, S, K and X shares, payable quarterly on the basis of the net assets of the SICAV as calculated at the end of the relevant quarter.

The Types I, I+, F, M, V, Y and Z shares benefit from a reduced "taxe d'abonnement" of 0.01% of the net asset value which is dedicated to that Type of shares.

The net assets invested in collective investment undertakings subject to the "taxe d'abonnement" stipulated by Article 175 (a) of the amended Law of 2010 are exempt from the "taxe d'abonnement".

**Note 6 - General distributor fee**

With the approval of the SICAV's Board of Directors, the Management Company delegated the general distribution functions to Union Bancaire Privée, UBP SA, Genève, in reference to the agreement initially dated 1st December 2003. A new 'General Distributor and Marketing Agent agreement' was signed on 19th April 2021.

General distributor fee is maximum 0.10% per annum. No General distributor fee is foreseen for the Types I, I+, F, M, V, Y and Z shares.

These fees are recorded in the statement of operations and other changes in net assets under the item "Other administration costs".

## Other Notes to the financial statements as at 31st December 2021 (continued)

### **Note 10 - Swing Pricing Mechanism**

The sub-funds may suffer a reduction in value of the net asset value per share due to transaction costs incurred in the purchase and sale of their underlying investments and/or the spread between the buying and selling prices of such investments when underlying investments trades are undertaken by the Investment Managers to accommodate subscriptions, redemptions and/or switches in and out of the sub-fund.

In order to counter this and to protect shareholders' interests, the Management Company adopted a Swing Pricing Mechanism. The Swing Pricing Mechanism means that in certain circumstances, the Management Company will make adjustments in the calculation of the net asset value per share. The net asset value per share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The extent of the adjustments will be set by the Management Company to reflect the above mentioned transactions costs and/or spread when these are deemed to be significant. The maximum adjustment will not exceed 2% of the original net asset value per share.

The Swing Pricing Mechanism may be applied across all Bond sub-funds with the exception of UBAM - DYNAMIC EURO BOND, UBAM - DYNAMIC US DOLLAR BOND, UBAM - EURO BOND, UBAM - GLOBAL HIGH YIELD SOLUTION, UBAM - EURO CORPORATE IG SOLUTION (formerly UBAM - HIGH GRADE EURO INCOME), UBAM - US DOLLAR BOND and UBAM - US HIGH YIELD SOLUTION and will be applied in an equitable manner to all shareholders of a same sub-fund on the same net asset value calculation date.

No Swing Pricing Mechanism will be applied for Convertible sub-funds and Equity sub-funds, Asset Allocation sub-funds, Fund of funds sub-funds and other sub-funds.

During the year, swing pricing has been applied in some net asset value calculations for the below sub-funds:

- UBAM - ABSOLUTE RETURN FIXED INCOME
- UBAM - ABSOLUTE RETURN LOW VOL FIXED INCOME
- UBAM - CORPORATE EURO BOND
- UBAM - EM INVESTMENT GRADE CORPORATE BOND
- UBAM - EM SUSTAINABLE CORPORATE BOND
- UBAM - EMERGING MARKET CORPORATE BOND SHORT DURATION
- UBAM - EMERGING MARKET DEBT OPPORTUNITIES
- UBAM - EM SUSTAINABLE SOVEREIGN BOND (formerly UBAM - EMERGING MARKET SOVEREIGN BOND) <sup>(1)</sup>
- UBAM - EMERGING MARKETS FRONTIER BOND
- UBAM - GLOBAL AGGREGATE BOND
- UBAM - GLOBAL BOND TOTAL RETURN
- UBAM - HYBRID BOND
- UBAM - MEDIUM TERM US CORPORATE BOND

As at 31st December 2021, no swing pricing factor was applied.

<sup>(1)</sup> Please refer to Note 18 for more details on events concerning this sub-fund.

#### **Note 12 - Securities Financing Transactions and of Reuse Regulation ("SFTR")**

The SICAV does not use any instruments falling into the scope of SFTR.

#### **Note 13 - Pledge of the assets**

The assets of each sub-fund are pledged in favour of BNP Paribas Securities Services, Luxembourg Branch in case of any potential bank overdraft.

#### **Note 14 - Related party**

During the year ended 31st December 2021, some sub-funds of the SICAV invested in shares of UCITS and/or other UCIs managed directly or indirectly by the SICAV or by a company with which it is affiliated through common management or control or by a direct or indirect stakeholding of more than 10% of the capital or voting rates. No subscription or redemption fees were charged to the SICAV for investments in such UCITS or other UCIs.

The transactions occurred during the year ended 31st December 2021 on shares of UCITS and/or other UCIs affiliated to the SICAV as presented above have been made at fair market conditions.

At year end, the SICAV has investments in the following funds which are related parties : U ACCESS Ireland and U ACCESS.

#### **Note 15 - Service fees**

The Service fee is maximum 0.365 % per annum on the average NAV for each Sub-Fund payable monthly to the Management Company with a minimum of EUR 35,000 per annum.

This Service fee includes but is not limited to the fees for the Administrative, Registrar and Transfer Agent as well as the Depository Bank. The Depository Bank fee covers both the fees for custody and monitoring of the assets.

## **Other Notes to the financial statements as at 31st December 2021 (continued)**

### **Note 16 - Other liquid assets and liabilities**

The amounts disclosed in the sections “Other liquid assets” and “Other liquid liabilities” are composed of collateral, VM cleared OTC, managed accounts held or paid and margin deposits in order to reduce exposure on OTC.

### **Note 17 - Subsequent events**

By circular resolution dated 30th March 2022, the Board of Directors decided to launch the sub-fund UBAM - DIVERSIFIED INCOME OPPORTUNITIES, with effective date on 10th May 2022. The first calculated net asset value of this sub-fund will be dated 11th May 2022.

#### **Geopolitical situation between Russia and Ukraine**

As a result of the events jeopardizing or threatening the territorial integrity, sovereignty and independence of Ukraine, the European Union, the United States, the United Kingdom and several other countries have taken a wide range of sanctions against certain banks, companies, officials and other persons in Russia and Belarus. The ongoing conflict and the rapidly evolving measures in response could be expected to have a negative impact on the economy and business activity globally (including in the countries in which the Fund invests) and therefore could adversely affect the performance of the Fund's investments. The severity and duration of the conflict and its impact on global economic and market conditions are impossible to predict and as a result, could present material uncertainty and risk with respect to the Fund and the performance of its investments and operations and the ability of the Fund to achieve its investment objectives. Similar risks will exist to the extent that any portfolio entities, service providers, vendors or certain other parties have material operations or assets in Russia, Ukraine, Belarus or the immediate surrounding areas.

As of 23rd February 2022 (before the above-mentioned events), 5.4% of the total net assets of the sub-fund UBAM - EM INVESTMENT GRADE CORPORATE BOND were exposed to issuers related to Russia, Ukraine or Belarus. This proportion to said countries was of 5.7% for the sub-fund UBAM - EM SUSTAINABLE CORPORATE BOND. The exposure to said countries for the other sub-funds represents less than 5 % of their respective total net assets. The Board of Directors is paying increased attention to the valuation of the portfolios. Until the date of this report, no gate has been activated and no decision to suspend the NAV calculation has been taken. There are currently no plans to take any of these actions. The Board of Directors of the Fund is confident that the funds operations will continue as a going concern and is carefully monitoring the situation.

**Unaudited information (continued)****2) Total expense ratio ("TER")****Total expense ratio ("TER")**

The TER is calculated for the last 12 months preceding the closing date.

For Switzerland, the composite (synthetic) TER is calculated according to the SFAMA guideline and is based on the TER of the target funds.

Transaction fees are not taken into account in the calculation of the TER.

If a performance-related fee is foreseen and has been calculated, the TER is disclosed including this fee. Moreover the performance fee ratio is calculated in percentage of the average net assets for the last 12 months preceding indicated reference date.

As at 31st December 2021, the TER calculated for each Class of Shares is as follows:

**Unaudited information (continued)****5) UCITS V****Remuneration**

As of December 31, 2021, UBP Asset Management (Europe) S.A. (or "UBP AM") as a management company authorized under Chapter 15 of the amended Law of 17 December 2010, and Chapter 2 of the amended Law of 12 July 2013 and Law of 23 July 2016, manages three (3) Luxembourg UCITS, five (5) Luxembourg either Part II funds or specialized investment funds qualifying as AIFs and two (2) Reserved Alternative Investment Fund, which represent a total of EUR 21.78bn Assets Under Management ("AUMs").

This section relates to the remuneration paid by UBP Asset Management (Europe) S.A., acting as Management Company of UBAM, either to its staff, its senior management or its Board of Directors. Total staff is 19 people, out of which 5 are considered as Identified Staff under the meaning of the AIFM Directive (including senior management & control functions).

***Remuneration principles***

According to the remuneration policy, the global remuneration includes fixed and variable remuneration.

As a general principle, fixed remuneration must represent a sufficiently high proportion of the total remuneration so that a fully flexible policy may be enacted as regards the variable component, including the option of not paying a variable component at all;

Variable remuneration is limited insofar as the remuneration of independent control functions is predominantly oriented towards adequate fixed remuneration and cannot, in principle, exceed 30% of the total fixed remuneration.

The variable part, in the form of a non-contractual and purely discretionary payment, is fixed considering the individual performance of the employee on the one hand and the economic situation of the UBP Group on the other hand. The employee's individual performance is assessed based on quantitative and qualitative criteria. The remuneration policy encourages the performance sustainability and long-term stability and aims to avoid excessive or inconsiderate risk-taking.

The variable remuneration is never linked to the AIF or UCITS performance nor to their risk profile and takes into account the potential conflicts of interest.

The UBP AM Remuneration Policy also sets out the specific rules that will be applied to staff members considered as "Identified Staff", being categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that takes him/her into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of UBP AM or of the funds it manages (including persons capable of entering into contracts, positions and taking decisions that materially affect the risk positions of the funds or management company).

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- Organizational changes
- New business initiatives
- Changes in role responsibilities
- Relevant changes in applicable regulatory framework

More information related to the remuneration policy content and implementation is available to the UBAM shareholders at the registered office of UBP Asset Management (Europe) S.A., 287-289, route d'Arlon, L-1150 Luxembourg.

### Remuneration Disclosure

UBP AM as appointed management company is required under the UCITS Directive to make quantitative disclosures of remuneration. These disclosures are made in line with UBP AM's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. In any case where market or regulatory practice will develop or change, UBP AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated or disclosed.

Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBP fund disclosures in that same year.

Disclosures are provided in relation to (a) the whole staff of UBP AM; (b) the senior managers – as specific category of material risk takers (MRTs); (c) other MRTs identified within UBP AM (including control functions) as having the ability to materially affect the risk profile of the Fund.

All individuals considered for the calculation of the aggregated figures disclosed are remunerated in line with UBP Group remuneration policy for their responsibilities across the relevant UBP business area. As all individuals have different areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Staff members and senior management typically provide both UCITS and non-UCITS related functions and services in respect of several funds under management of UBP AM, and across the broader UBP group. Therefore, the figures disclosed are a sum of each individual's (staff, senior management and other MRTs) portion of remuneration - split into fixed and variable, and into different categories of members - and attributable to the Fund according to an objective apportionment methodology which takes into account the related assets under management of the Fund vis-à-vis the whole assets managed by UBP AM. Those figures are based on the amount paid in respect of the previous fiscal year and calculated on an AUM pro-rata basis. Accordingly, the figures are not representative of any individual's actual remuneration payment or remuneration structure.

**Unaudited information (continued)****6) Sustainable Finance Disclosure Regulation (“SFDR”)**

In line with the Sustainable Finance Disclosure Regulation, in 2021, 27 UBAM active sub-funds have been classified as Article 8 (SFDR), promoting environmental and/or social characteristics, while 4 active sub-funds have been classified as Article 9 (SFDR), having sustainable investment as their objective. Other UBAM sub-funds were classified as Article 6.

**Article 8 sub-funds**

The investment processes of UBAM Article 8 sub-funds combine different strategies, including exclusion of harmful activities, norm-based screening, ESG integration, positive selection as well as active ownership through voting (equity sub-funds) and engagement.

As a result, overall UBAM Article 8 funds exhibited fairly high ESG rating (as measured by MSCI), in absolute or relative terms.

Throughout the year, the implementation of these strategies led to the promotion of environmental characteristics, as described in the sub-funds' individual sections of the Fund's prospectus.

### Reduced Carbon footprint

Several sub-funds aimed to reduce the weighted average carbon intensity of their portfolio, compared to their investment universe.

#### **Article 9 sub-funds**

The investment processes of UBAM Article 9 sub-funds combine different strategies, including exclusion of harmful activities, norm-based screening, ESG integration, positive impact assessment selection as well as active ownership through voting (equity sub-funds) and engagement.

Throughout the year, the implementation of these strategies led to the selection of sustainable investments, as described in the sub-funds' individual sections of the Fund's prospectus.

All sustainable investments were assessed to comply with the do no significant harm principle. In particular, the funds held no investment in companies found in breach of international norms, as assessed by MSCI Red flags. This covers environmental, social, human rights and labour rights norms and principles, such as the UN Global Compact or the OECD Guidelines for Multinational Enterprises.

#### **Impact and thematic sub-funds:**

All equity holdings were assessed through a proprietary process, which measures companies' impact across four dimensions: Intentionality, Materiality, Additionality and Potentiality (IMAP). This is aggregated into an IMAP score, on a scale of 1-20. The strategies also considered the EU criteria for environmentally sustainable economic activities.

	Average IMAP score	Share of taxonomy- aligned revenues	Share of taxonomy- aligned CAPEX
UBAM - BIODIVERSITY RESTORATION <sup>(11)</sup>	15.0/20	10.3%	6.0%
UBAM - POSITIVE IMPACT EMERGING EQUITY <sup>(12)</sup>	14.2/20	20.8%	9.5%
UBAM - POSITIVE IMPACT EQUITY	15.6/20	3.3%	0.9%

*As at 31/12/21 - Sources: UBP, Sustainalytics*

*Taxonomy-aligned investments include activities linked to Climate Mitigation only. Alignment is assessed by Sustainalytics, based on availability of data. Due to limited information on companies' OPEX eligibility, OPEX alignment is not reported here.*

#### **Green bond strategy**

### Article 6 sub-funds

Article 6 sub-funds do not promote environmental or social characteristics, nor do they have sustainable investments as their objective. As a result, investments underlying these sub-funds did not take into account the EU criteria for environmentally sustainable economic activities.

*ESG Quality Score: The ESG Quality Score represents either the ESG Ratings Final Industry-Adjusted Score or the Government Adjusted ESG Score of the issuer. ESG Ratings indicate how well an issuer manages its most material ESG risks relative to sector peers. Government Ratings indicates overall environmental, social, and governance (ESG) performance of a country. To calculate a portfolio ESG Quality Score, the net exposure of ESG rating positive trend, ESG rating negative trend and ESG tail risk (specifically holdings with CCC and B ESG Ratings) are applied as a multiplier to the weighted average score on the underlying issuers.*

*ESG Rating: The ESG Rating is derived from the ESG Quality Score. The score is mapped to a seven-letter rating scale : best (AAA) to worst (CCC) as follows: [8.6,10]->AAA; [7.1, 8.6] -> AA; [5.7, 7.1] -> A; [4.3, 5.7] -> BBB; [2.9, 4.3] -> BB; [1.4, 2.9] -> B, [0; 1.4] -> CCC*
